Dominican College . . .

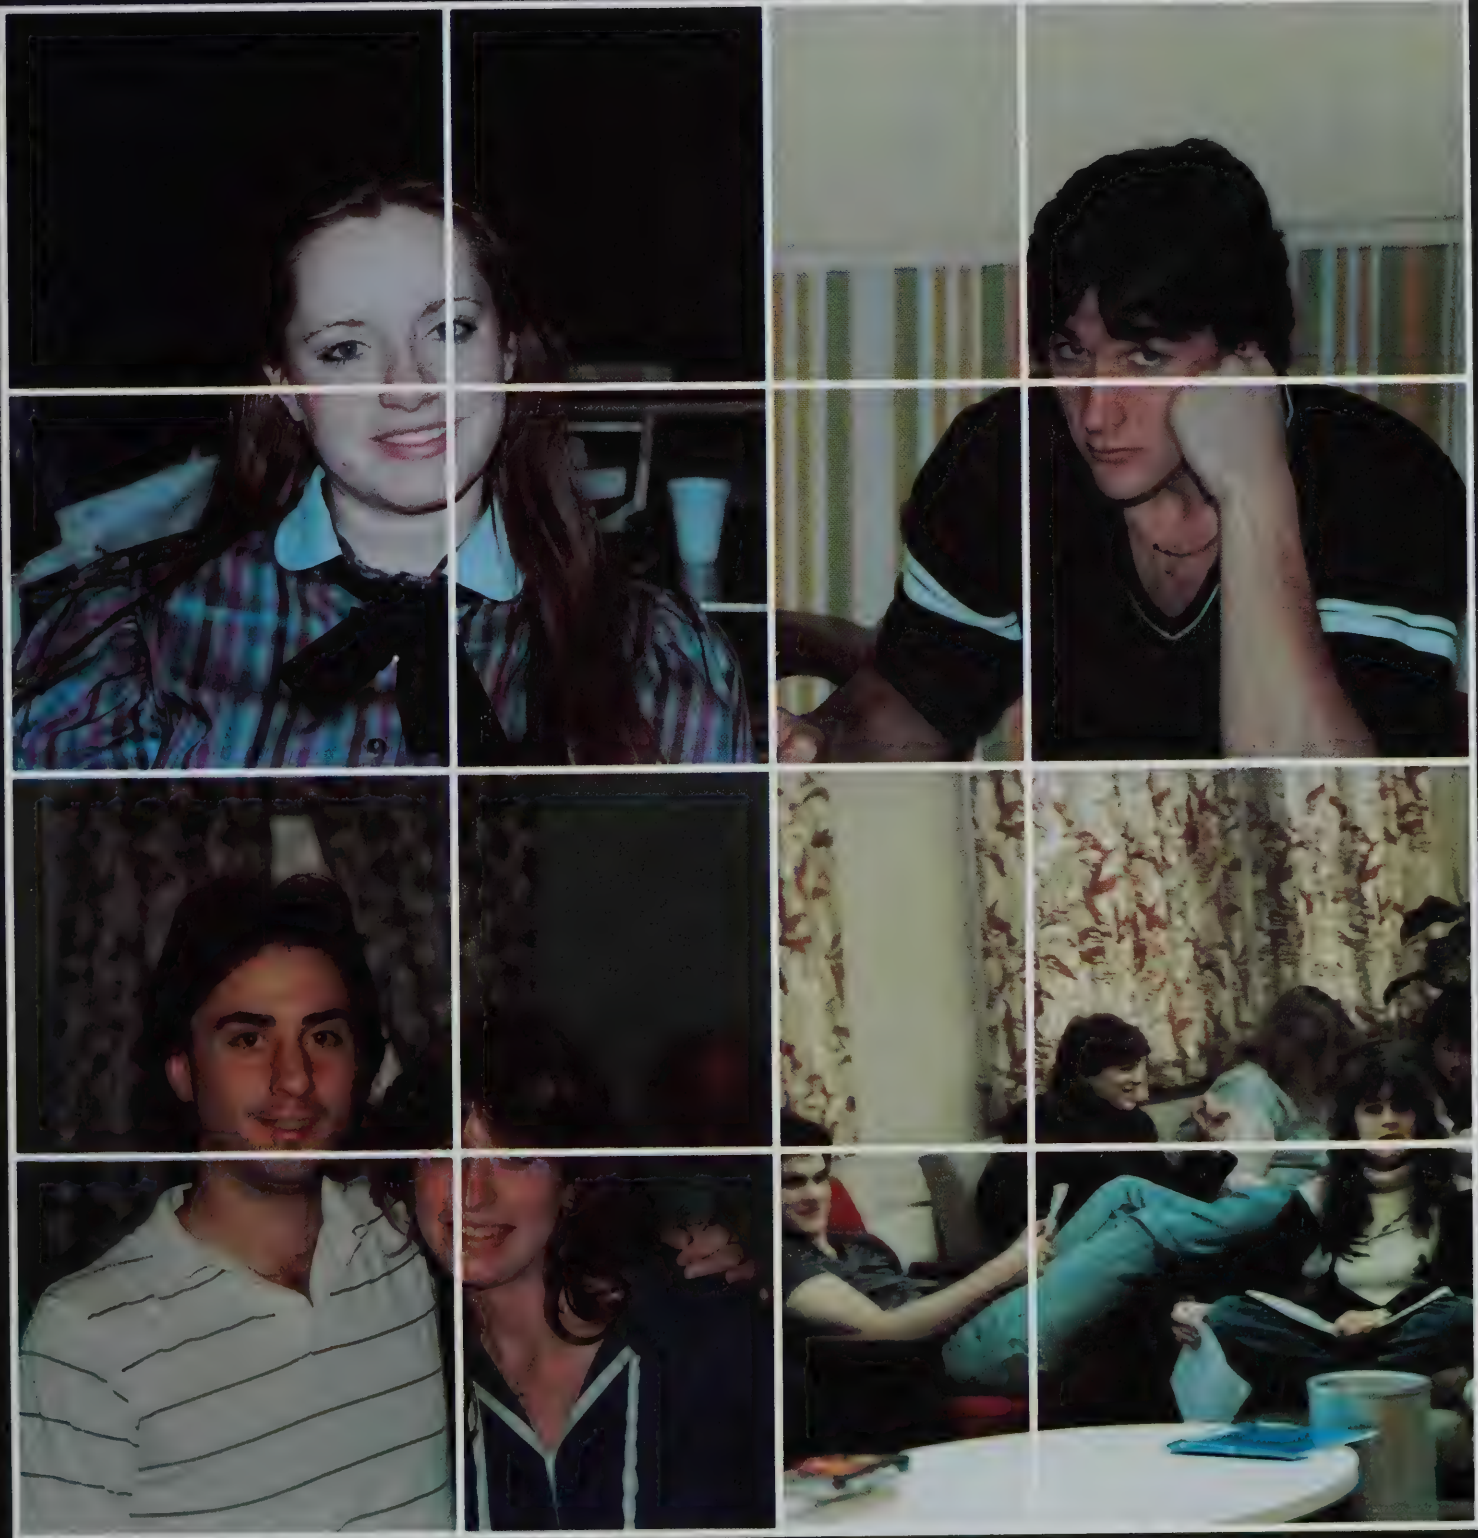

The opportunity to develop a specialty in an academic field which will help us build our careers in an atmosphere which stimulates creativity, curiosity and even a little craziness (the fun kind, of course). A diverse student population strengthens our sensitivity and understanding of people.

There are many things that make Dominican College special — things that make our school different from all the rest. The Aubade staff decided to focus on the people, academics, entertainment, sports and events that make us so proud to be part of Dominican.

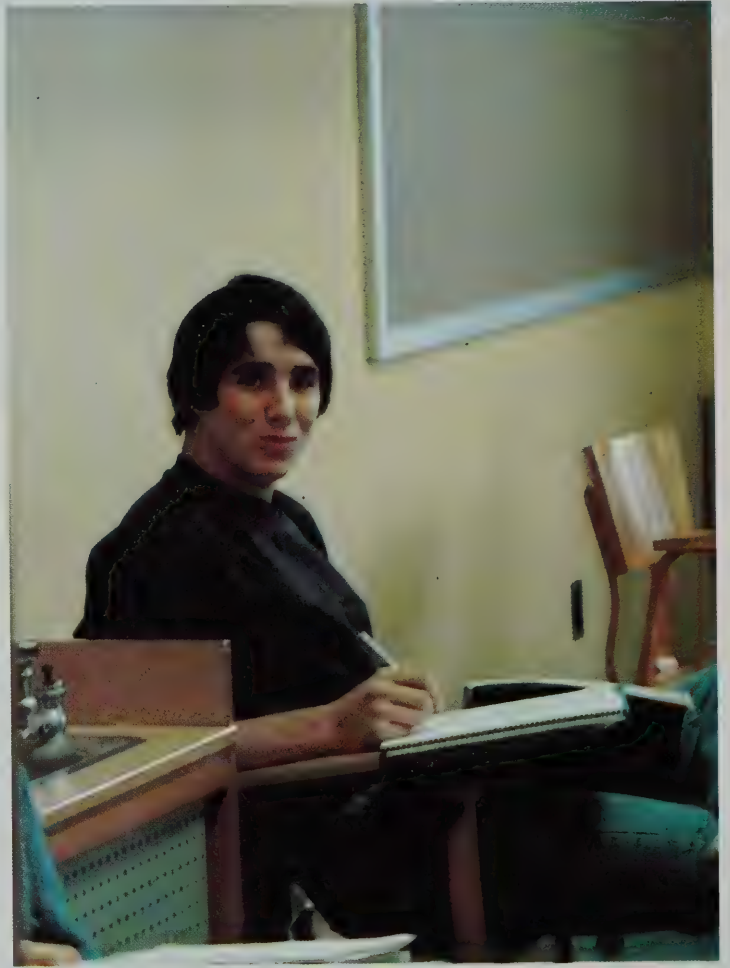

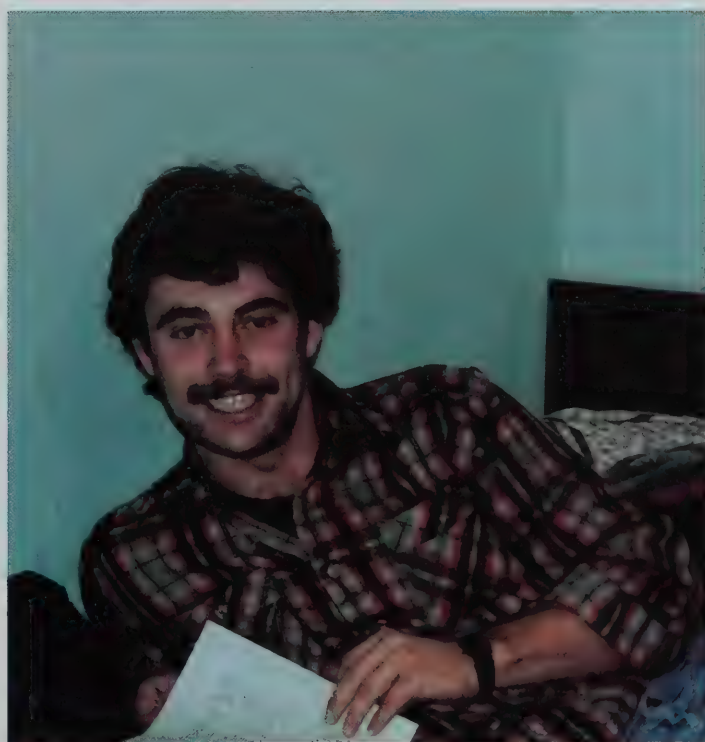

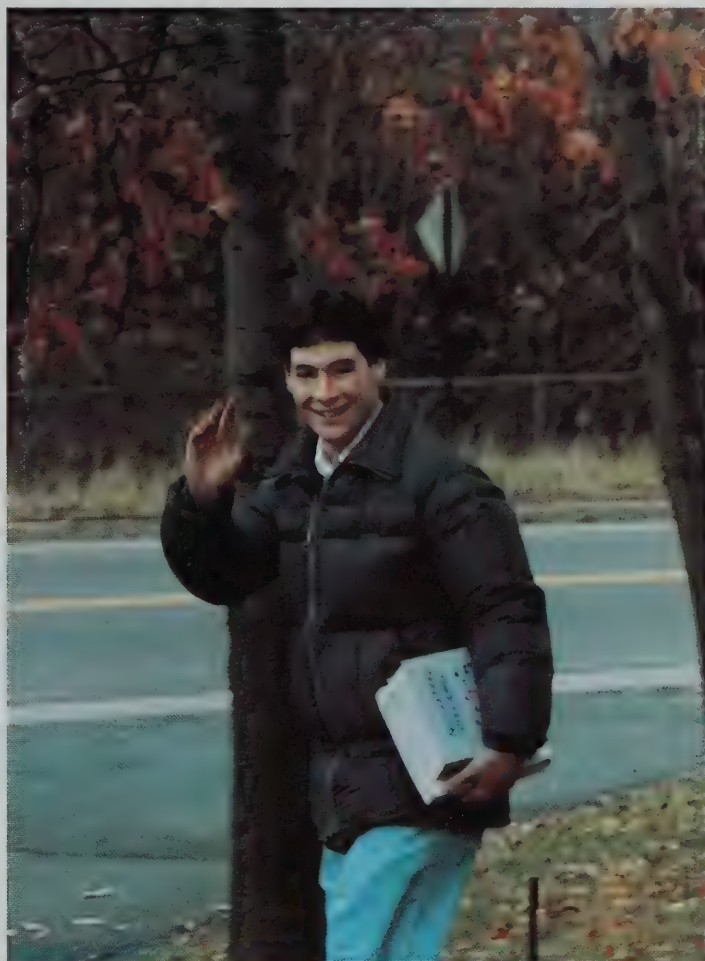

Administration and Faculty
